

ALI-SCAFF 1.3m Wide Mobile Tower 1.2m End Frame & Guardrail

Working Platform Heights:- **Mobile 1.5 - 1.8m**

With **Baseplates** inserted in bottom of End Frames = **1.21m** (Does not include Soleboard(s) height).

With **Basejacks** inserted in bottom of End Frames = **1.25m** at lowest extension. Recommend that screwjack on Basejack is only extended by **200mm** to have a Working Platform Height of **1.45m**. (Fully extended the Basejack has 380mm extension (1.630m) but is not as stable as with a 200mm extension).

With **Castors** inserted in bottom of End Frames = **1.55m** at lowest extension. Same recommendation as with the Basejack where it is recommended that only extend the Castor a further **200mm** giving you a Working Platform height of **1.8m**.

Note: no ladder available to access this height Mobile/Tower so Hirer's will be supplied with a Fully Hinged Access Deck to access Working Platform. Hinged parts MUST be closed off after gaining access to avoid falling through opening.

Component List:-
