

## ALI-SCAFF 1.3m Wide Mobile Tower 2m + 1.2m End Frames & Guardrail

Working Platform Heights:- **Two Platforms i.e. lower platform at the 3<sup>rd</sup> Transom height.**

### **Mobile 3.5m – 3.7m**

With **Baseplates** inserted in bottom of End Frames = **3.21m** (Does not include Soleboard(s) height).

With **Basejacks** inserted in bottom of End Frames = **3.25m** at lowest extension. Recommend that screwjack on Basejack is only extended by **200mm** to have a Working Platform Height of **3.45m**. (Fully extended the Basejack has 380mm extension (3.63m) but is not as stable as with a 200mm extension).

With **Castors** inserted in bottom of End Frames = **3.5m** at lowest extension. Same recommendation as with the Basejack where it is recommended that only extend the Castor a further **200mm** giving you a Working Platform height of **3.7m**.

### Component List:-

- 2 x 2m End Frames
- 2 x 1.2m End Frames
- 2 x Guardrail Frames
- 12 x Yellows (Horizontals)
